TYPO3.Neos - Feature # 31639

Status:	Resolved	**Priority:**	Must have
Author:	Sebastian Kurfuerst	**Category:**	UI
Created:	2011-11-07	**Assigned To:**	Aske Ertmann
Updated:	2012-01-31	**Due date:**	

Subject:	Implementation of module framework

Description

- create prototype / draft (example: show a page tree, user management, group management)
- 1st step: load module contents as Subrequests
- 2st step: replace page reloads with AJAX

Module package example:

https://gist.github.com/1534417

History

#1 - 2011-11-23 14:17 - Sebastian Kurfuerst

- Assigned To set to Aske Ertmann

assigning to Aske, as he wants to work on it.

Notes from the meeting:

- Sebastian has created a basic prototype
- We should use subrequest for the management view (different modules) since most of the management view would be plugins
- No javascript in the beginning, only replace the page reloads with ajax
- CSS Framework: http://twitter.github.com/bootstrap/ - could be used for layout of the management view (layout, forms, etc.)
  - Should consult with Berit
- http://html5boilerplate.com/ ?
- Create a system view (user/group management) - create new backend user, modify users, delete etc.
- (later) Create/integrate a page tree

#2 - 2011-12-01 13:33 - Aske Ertmann

- Standalone functionality (no AJAX required)
- Abstract module
  - Routing (route part handler)
  - Yaml configuration
- Dashboard
  - Show submodules if module has submodules otherwise show actions (default template)
- Main modules viewhelper (for the modules menu)
- Breadcrumb menu

#3 - 2011-12-29 15:54 - Aske Ertmann

- Subject changed from Implementation of Management View Framework to Implementation of Module View Framework

#4 - 2012-01-02 13:46 - Aske Ertmann

- Status changed from New to Accepted

- % Done changed from 0 to 70

#7 - 2012-01-05 16:07 - Aske Ertmann

Needs a modification in the FLOW3 RoutePartHandler, which is not really a sustainable solution. Needs rework.

Known routing issues:
- Appends exceeding arguments automatically on all f:link links within the sub request.
- Additional params is appended after moduleArguments resolving in double ? signs
- @format is not supported
