Updated:	2012-12-10	**Due date:**	
Has patch:	No		
Subject:	ResourceViewHelper should support I18n		

Description

The default behavior for the ResourceViewHelper should be to use a localized version if a resource, if available.

[!!!][FEATURE] I18n support for uri.resource VH in Fluid

This adds the (already documented) localization of resources to the
uri.resource VH. Any path will be localized if possible, unless the
feature is switched off using the "localize" argument.

The change is marked as breaking because it removed the "uri"
argument formerly available to the VH.
