Subject:	MENU special = updated not working in 4.6

Description

MENU special = updated is not working in TYPO3 Version 4.6.1

Following code worked with Version 4.5:

```
page.20.marks.LASTUPDATE.25 = HMENU
page.20.marks.LASTUPDATE.25 {
    special = updated
    special {
        value = 1
        depth = 3
        maxAge = 3600*24*90
        limit = 5
    }

    1 = TMENU
    1 {
        NO = 1
        NO.wrapItemAndSub = <li>|</li>
    }
}
```

Revision 4b2eec1f - 2012-01-18 12:17 - Xavier Perseguers

[BUGFIX] MENU special = updated does not work anymore

Since stdWrap has been introduced on HMENU properties, a wrong

test removes the condition pidInList=0 which prevents the inclusion

of a pid IN (current page) clause in the query used to retrieved

recently modified pages.

Hi Sven!

What does it show now? Nothing or too much, wrong data?

Regards Markus

Hi Markus

The menu behaves as if there were no updated pages. That means zero output. I reproduced the problem locally with the TYPO3 MAMP Installer
Version 4.5.3 and 4.6.1. The installed testsite already contains lastupdated Typoscript Code that just needs to be activated. Result: 4.5.3 works (menu
is generated), 4.6.1 is not working (no menu is generated). A screenshot of how it **should** work is attached.

Kind regards,
Sven

#3 - 2011-12-08 12:24 - Henrik Ziegenhain

I can confirm it as a bug.

My lastUpdated menu stopped working with 4.6 - I output the 9 last updated pages.

Now the pages seems to be unordered and selected wrong.

#4 - 2012-01-11 14:38 - Ingo Pfennigstorf

I can confirm this, too - TYPO3 4.6.3

#5 - 2012-01-11 15:03 - Xavier Perseguers

- Status changed from New to Accepted

#6 - 2012-01-11 15:27 - Xavier Perseguers

- Assigned To set to Xavier Perseguers

OK, I trapped the bug! Now have to figure out how to deal with it

#7 - 2012-01-11 15:33 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at http://review.typo3.org/7739
