| **Affected Flow version:** Git master | |

| **Subject:** | (Unit test) failures with new class loader |
|---|---|
| **Description** | |

Two test cases fail with the new class loader. At least in one case that could also break in real life use (package creation).

[BUGFIX] Fix unit tests failures with new class loader

Two unit tests failed with the new class loader[1]. One because there
was a check for ignored classes, but it came too late. The other because
for the shortcut link creation the package path is now needed right
after activation of a package.
