

Salted user password hashes - Bug # 3254

Status:	Closed	Priority:	Should have
Author:	Marcus Krause	Category:	Auth Service
Created:	2009-05-10	Assigned To:	Marcus Krause
Updated:	2010-10-20	Due date:	2009-05-10
Subject:	Code cleanup - remove unnecessary method call (user record)		
Description			
<p>In authentication service method authUser() there's a method call \$this->fetchUserRecord() although the result is already given as method parameter.</p> <p>-> Remove the unnecessary call and use method parameter instead!</p>
