Complexity:			
Subject:	Remove configuration-types "Package" and "PackageStates" from configurationManager		
Description			
The configuration-types "Package" and "PackageStates" seem to be leftovers from some refactorings. Since they are currently not used any more the code should be removed.

[TASK] Removed unused configuration types "Package", "PackageStates"

The patch removes unused parts from the configurationManager:

- Removed unused configuration types "Package" and "PackageStates"
- Removed methods "setConfiguration" and "saveConfiguration". The methods were only intended to work with packageStates which is unused.
- Adjusted unit tests of configurationManager
