<b>Subject:</b>	TCEforms reference non-existent CSS file resize.css				
<b>Description</b>					
Introduction of ExtJS4 (#32196) removed t3lib/js/extjs/ux/resize.css, which is still referenced in t3lib_tceforms and causes a PHP warning in t3lib_compressor.					
Unsure if this file has to be brought back or whether it is really not needed anymore.

[BUGFIX] TCEforms reference non-existent CSS file resize.css

With the migration to ExtJS4 the CustomResizer has been modified.

Since that the extra CSS file is superfluous.

Remove the left over call in TCEforms.
