Has patch:	No
Complexity:	
Affected Flow version:	Git master
Subject:	Files::is_link() returns TRUE for vfs paths on Windows
Description	

\TYPO3\FLOW3\Utility\Files::is_link() was introduced to circumvent PHPs buggy behavior with Symlinks on Windows (see http://bugs.php.net/bug.php?id=51766).

This work around does not work for stream wrappers. That breaks some unit tests making use of vfs paths.

[BUGFIX] Files::is_link() returns TRUE for vfs paths on Windows

This adds a check to \TYPO3\FLOW3\Utility\Files::is_link() that
prevents the method from returning TRUE for virtual paths
(e.g. streamwrapper like "vfs://").
