TYPO3.Flow - Bug # 32738

Status:	Resolved	**Priority:**	Should have
Author:	Karsten Dambekalns	**Category:**	- Testing -
Created:	2011-12-20	**Assigned To:**	Karsten Dambekalns
Updated:	2011-12-21	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version:	FLOW3 1.0.1
Subject:	Unit tests fail with PHPUnit 3.6.5
Description	

The very latest PHPUnit breaks our workaround for tests producing output. They output things because some warning is produced and we so far did not use the shut-up operator.

It seems there is no way around this anymore, since the trick of using @outputBuffering seem to no longer work.
