Subject:	Update Aloha to most recent Development Version -- with refactored Aloha Blocks		

Description

Aloha Blocks have been greatly reworked by me; with lots of performance improvements and bugfixes along the road.

A short overview of the changes can be found at: https://github.com/alohaeditor/Aloha-Editor/pull/366/

However, there are quite some architectural changes in Aloha, which means we need to adjust some parts:

- Loading Order has changed; require.js is now embedded in aloha.js
- jQuery is now available under Aloha.jQuery; not under window.alohaQuery
- Block API has changed; block internals have changes
- numerous bugfixes

Associated revisions

Revision cf5f424f - 2012-01-06 11:19 - Sebastian Kurfuerst

[FEATURE] (JavaScript): Adjust TYPO3 Phoenix to Aloha Changes

- Loading Order has changed; require.js is now embedded in aloha.js
- jQuery is now available under Aloha.jQuery; not under window.alohaQuery
- Block API has changed; block internals have changes
- numerous bugfixes

In order to test this change, make sure to apply the corresponding changes
to Aloha as well.

Resolves: #32833
Change-Id: Iff30cf20012a713b50cd0651a85340b7485dbf64
