

TYPO3.Fluid - Bug # 3294

Status:	Resolved	Priority:	Should have
Author:	Sebastian Kurfuerst	Category:	Core
Created:	2009-05-14	Assigned To:	
Updated:	2010-10-20	Due date:	
Has patch:			
Affected Flow version:			
Subject:	Introduce reflection cache		
Description			
Introduce reflection cache			

History

#1 - 2009-05-20 13:52 - Sebastian Kurfuerst

- Target version changed from 1.0.0 alpha 1 to 1.0
- Branch set to v4

#2 - 2009-06-06 08:40 - Sebastian Kurfuerst

Problem:

Some parts of Fluid/Extbase use Reflection to determine the parameters of an action and a ViewHelper. For that, we backported some aspects of the FLOW3 reflection service, which can be found in Tx_Extbase_Reflection_Service.

However, Reflection in PHP is quite slow, that's why in FLOW3, this information is cached inside the caching framework (which is available in TYPO3 4.3 as well).

Job description:

Your job is to add caching support using the Caching Framework to the Reflection Service, making general Extbase and Fluid calls a lot faster.

#3 - 2009-06-09 12:39 - Niels Pardon

- File 3294_extbase.patch added

#4 - 2009-06-10 10:02 - Niels Pardon

- File 3294_extbase.patch added

#5 - 2009-06-18 13:36 - Sebastian Kurfuerst

- Category set to Core
- Status changed from New to Resolved
- % Done changed from 0 to 100

#6 - 2009-06-23 15:46 - Nikolas Hagelstein

Though it's actually TYPO3 core/Caching framework related the backport of this feature triggers:
