History

#1 - 2012-01-04 15:44 - Jakob Berlin

In Typo3 4.5.10 the screenshot of DB behavior is not reproduceable for me. It seems that something changed here. Now a row with MOVE-TO PLACEHOLDER and setup "t3ver_move_id" appears before publish and disappears after publish. In the "new" row the colpos value is right but not seems to be used...

#2 - 2012-01-04 17:54 - Jakob Berlin

- File *bug_32967.diff* added

After hours of researching through the core I found the (a?) location where I can fix it. See diff file. Is this the right/best/only location? Someone with more Typo3-Core-Skill should check this.

If fine I can commit this to git repo.

#3 - 2012-01-06 01:42 - Simon Schaufelberger

| If fine I can commit this to git repo.

you can ALWAYS push to gerrit. code review will be done there and not HERE in forge so go ahead and push!
Then it is also easier to review since you can just checkout your commit into your own local repo.

Patch set 12 for branch **master** of project **Packages/TYPO3.CMS** has been pushed to the review server.
It is available at <https://review.typo3.org/18107>

#24 - 2015-01-06 21:20 - Wouter Wolters

- *Status changed from Under Review to Needs Feedback*
- *Is Regression set to No*

Hi,

does the problem still exists within newer versions of TYPO3 CMS (6.2.9)?

#25 - 2015-05-11 15:41 - Riccardo De Contardi

- *Status changed from Needs Feedback to Closed*

I tried with both 6.2.12 and 7 (latest master) and I was not able to reproduce the bug, so I close this for now.

If you think that this is the wrong decision or experience this issue again, then please write to the mailing list typo3.teams.bugs with issue number and an explanation or open a new ticket and add a relation to this ticket number.

Please note that I had to use this <https://review.typo3.org/#/c/39430/> to make WS usable on 7
