

## TYPO3.Flow - Feature # 3306

<b>Status:</b>	Accepted	<b>Priority:</b>	Should have
<b>Author:</b>	Robert Lemke	<b>Category:</b>	MVC
<b>Created:</b>	2009-05-14	<b>Assigned To:</b>	Robert Lemke
<b>Updated:</b>	2013-05-06	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Subject:</b>	Flush routes cache automatically on class file modifications		
<b>Description</b>			
If a class containing a route part handler is changed, we also need to flush the routes cache because other routes might match now.

### Associated revisions

#### Revision 98343cbb - 2009-05-28 11:23 - Robert Lemke

For the FLOW3 distribution added a sub route to the Welcome package subroutes. If the Welcome package is installed, its fallback route becomes active and displays a meaningful welcome screen.

- FLOW3: (MVC) For now disabled the caching of routes because they can lead to confusion during development. We can enable caching again once the routes cache is automatically flushed. Refs #3306
- FLOW3: (MVC) The Router will now produce a log entry if no route matched.
