Updated:	2012-01-18	Due date:	
PHP Version:	5.3		
Has patch:	No		
Complexity:	easy		
Subject:	Create .Shortcuts directory if it is missing		
Description	<p>FLOW3 currently creates or updates the Packages/.Shortcuts/ directory only if the package states have changed. That is correct in theory, but if one messes with the package directories by manually moving around packages, you might get lost.</p> <p>Therefore it would be nice if the .Shortcuts directory would be created if it does not exist. This would add stability but also allow a developer to just remove a broken .Shortcuts directory and it would be regenerated on the next hit.</p>

[FEATURE] Create .Shortcuts directory if it is missing

The .Shortcuts directory will now be built if it is missing. That allows developers to just trash a broken .Shortcuts directory if they messed with package directories manually.

Change-Id: I537ec73f8c4ded0558bd0d02243e4e4379f63bda

Resolves: #33112

Releases: 1.1

History

#1 - 2012-01-11 11:00 - Gerrit Code Review

- Status changed from Accepted to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <http://review.typo3.org/7735>

#2 - 2012-01-18 03:26 - Robert Lemke

- Status changed from Under Review to Resolved

- % Done changed from 0 to 100

Applied in changeset commit:8dd2ea5352ca1fab38fbe1d2b6b26b6f432e985.
