

TYPO3.Fluid - Feature # 33143

Status:	Resolved	Priority:	Could have
Author:	Adrian Föder	Category:	ViewHelpers
Created:	2012-01-12	Assigned To:	Adrian Föder
Updated:	2012-09-17	Due date:	
Has patch:	No		
Subject:	Allow Format.Currency ViewHelper regard Locale		
Description	The Format.Currency ViewHelper currently only renders its formatting "hard-coded". Allow usage of the Locale and Cldr functionality.		
Related issues:	related to TYPO3.Flow - Feature # 9313: Support for currencies New duplicated by TYPO3.Fluid - Feature # 36014: Prepend currency sign Resolved

#1 - 2012-01-13 17:20 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <http://review.typo3.org/7783>

#2 - 2012-01-13 17:26 - Adrian Föder

What do you think about the idea and its implementation at all?

What I already thought to the end is that the currency itself has to be set explicitly **always**, a currency is always bound to the value to describe. It does not make sense to give a value and assign "any" currency wildly.

What may be considered is the position of the currency sign (leading or trailing); on one hand it is set at the CLDR information (see Framework\TYPO3.FLOW3\Resources\Private\Locale\CLDR\Sources\main\de_CH.xml in contrast to ...de.xml, in first case the currency symbol is leading, in latter case it's trailing.

So please share your thoughts, if we come to an end I will add the date ViewHelper in a similar style to the look we've been discussing here than.
