TYPO3.Flow - Bug # 33145

Status:	Closed	**Priority:**	Must have
Author:	Christof Rodejohann	**Category:**	Object
Created:	2012-01-12	**Assigned To:**	Karsten Dambekalns
Updated:	2012-06-25	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version: FLOW3 1.0.2	
Subject:	Annotation parser for interfaces gets confused

Description

With the following constellation

Example.php
containing the class Example with a scope singleton

and

ExampleInterface.php
containing the interface ExampleInterface which is not implemented in the class Example.

in the same directory, the interface annotation parser will throw the following exception:

"Scope annotations in interfaces don't have any effect, therefore you better remove it from My\Package\ExampleInterface in order to avoid confusion." (Exception code #1299095595)

Removing the scope from Example solves the exception in ExampleInterface.
