# TYPO3.Flow - Bug # 33297

Status:	Closed	Priority:	Won't have this time	
Author:	Christopher Seidel	Category:		
Created:	2012-01-18	Assigned To:	Karsten Dambekalns	
Updated:	2012-03-10	Due date:		
PHP Version:	· · · ·			
Has patch:	No			
Complexity:				
Affected Flow vers	ion: FLOW3 1.0.2			
Subject:	flow3 package:list throws an er	rror		
Description				
Hi together,				
thanks for FLOW3.	I'm developing for about one year w	ith it and now i discovered a bug	g which is not an open task, or maybe i just

Could you give me some more details to reproduce this? Like an offending filename? Thanks!

## #2 - 2012-03-07 18:14 - Christopher Seidel

Yes just like:

#test.html

or something similar

## #4 - 2012-03-07 21:39 - Karsten Dambekalns

- Status changed from Accepted to Needs Feedback

I created a file named #test.html in the public resources folder and called package:list - worked fine. I suspect a different problem, as failed to open dir: Too many open files also hints at something different.

Does this only happen with package:list or also other commands?

### #5 - 2012-03-09 18:55 - Christian Müller

Maybe a bug in a specific PHP version causing some overflow (Too many open files) when there is a file with #?

Could you tell us the used PHP version and the amount of files and directories in this folder? And additionally try a simple test script directly in this folder, something like:

<?php

```
$handle = opendir(__DIR__);
if ($handle !== FALSE) {
    while (($file = readdir($handle)) !== false) {
        echo "filename: $file ". "\n";
    }
}
?>
```

#### #7 - 2012-03-10 10:18 - Christopher Seidel

Well, i updated apache2, PHP and FLOW3 Versions last weeks and now the error doesnt occur anymore :/

I will try to produce this error again

### #8 - 2012-03-10 11:32 - Karsten Dambekalns

- Status changed from Needs Feedback to Closed
- Priority changed from Should have to Won't have this time

That matches my expectations to a large degree - sounded like something not really related to our code.

Have fun without the bug! ;)
