

DEV3 - Bug # 3338

Status:	New	Priority:	Must have
Author:	d.ros no-lastname-given	Category:	
Created:	2009-05-16	Assigned To:	
Updated:	2010-10-20	Due date:	
Subject:	cannot save *.ts files in eclipse aptana with dev3 on linux		
Description			
<p>Hello ,</p> <p>I cannot save files with the *.ts ending [typo3 4 editor assigned]. If I press the save button after altering a file the * for not saved files disappears in the filetab but if i reopen the file to previous changes are not stored. this happens in the file view dialog on ftp and local files. this happens since the last update of eclipse i think . . . but do not know really. all available software updates are installed. i also cleared the workbench and started from scratch . . . other editors like html save files without problems. the log seems to be clean. . .</p> <p>here are the systems specifications:</p> <p>Eclipse Configuration Details --> ecd.txt</p> <p>@</p> <pre>rpm -qa java java-1_6_0-sun-1.6.0.u13-0.1.1 java-1_6_0-sun-plugin-1.6.0.u13-0.1.1 timezone-java-2009d-0.1.1 java-1_6_0-sun-devel-1.6.0.u13-0.1.1 java-1_6_0-openjdk-plugin-1.4_b14-24.5.2 java-1_6_0-sun-src-1.6.0.u13-0.1.1 java-1_6_0-openjdk-1.4_b14-24.5.2</pre> <p>@</p> <pre>rpm -qa eclipse* eclipse-jdt-3.4-6.2 eclipse-platform-3.4-6.2 eclipse-archdep-platform-3.4-6.2 eclipse-3.4-6.2 eclipse-pde-3.4-6.2</pre> <p>uname -a Linux linquad 2.6.27.21-0.1-default #1 SMP 2009-03-31 14:50:44 +0200 x86_64 x86_64 x86_64 GNU/Linux OpenSuSE 11.1 on Model: 6.15.11 "Intel(R) Core(TM)2 Quad CPU Q6600 2.40GHz + 8GB RAM</p> <p>@</p>			

History

I confirm this bug for eclipse with aptana plugin on windows.

#2 - 2010-06-20 16:52 - d.ros no-lastname-given

What's going on with DEV3. Where does it stuck ?? It feels as if the developent has completely stopped. A news entry would be nice . . .
