Has patch:	No		
Complexity:			
Affected Flow version: Git master			
Subject:	SubRequest should return format of root request		
Description			
<p>The SubRequest is currently missing getter and setter for the request format.</p> <p>This is required for Fluid for example where the rendering is bound to the current request. If that request is a SubRequest (e.g. in Plugins or Widgets) the format should inherit the format of the root request.</p>
