

TYPO3.Flow - Feature # 33587

Task # 36800 (Accepted): Streamline Resource object API

Status:	New	Priority:	Should have
Author:	Bastian Waidelich	Category:	Resource
Created:	2012-02-01	Assigned To:	
Updated:	2013-11-11	Due date:	
PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Automatically remove unused Resources		
Description			
<p>Currently you have to delete unused Resources manually (resource & resource pointer records from the database and the actual file & possibly symlink) when a resource is no longer needed.</p> <p>This should be a feature of FLOW3.</p> <p>Because it is not always possible to determine whether a resource is still in use a CLI command could remove the ones that are not referenced and older than x minutes.</p>
