<b>Subject:</b>	Don't modify SYS_LASTCHANGED when changing something in a workspaces				
<b>Description</b>					
<p>Currently I have a small TypoScript that displays the last changed date of a page</p> <pre>lib.lastChanged = TEXT lib.lastChanged {     data = page:SYS_LASTCHANGED     strftime = %d.%m.%Y }</pre> <p>When some content or data of the page is changed in a workspace the SYS_LASTCHANGED field of the table unfortunately gets updated to avoid confusion or displaying false information in that case.</p>
