<b>Subject:</b>	Shortcut Handling in FrontendNodeRoutePartHandler can lead to exception		
<b>Description</b>	<p>resolveValue in FrontendNodeRoutePartHandler doesn't check if \$node is really instance of NodeInterface, it just calls methods on it. This leads to unhandled exceptions in vanilla Phoenix Distribution.</p> <p>To test checkout clean Pheonix master, import, create admin and login, you should directly end up with the exception.</p>

[BUGFIX] Check if resolved node is instance of NodeInterface

Currently resolveValue assumes that the resolved node is really a node and calls node methods without checking if that really is possible. This change fixes that behaviour.

Change-Id: I8cb07388fa61128f48c3a3e14f21f70d2e3e6d6a

Fixes: #34233

### History

#### #1 - 2012-02-24 16:36 - Gerrit Code Review

Patch set 1 for branch **master** has been pushed to the review server.

It is available at <http://review.typo3.org/9182>

#### #2 - 2012-02-26 22:32 - Sebastian Kurfuerst

- Status changed from *Accepted* to *Resolved*

- % Done changed from 0 to 100

thanks :)
