# TCA Reference - Bug # 34302

| | | | |
|---|---|---|---|
| **Status:** | Closed | **Priority:** | Should have |
| **Author:** | Ingmar Schlecht | **Category:** | |
| **Created:** | 2012-02-26 | **Assigned To:** | Francois Suter |
| **Updated:** | 2012-04-23 | **Due date:** | |
| **Subject:** | Documentation for [FEATURE] Integrate possibility to overrule types array in TCEforms_inline | | |

| **Description** |
|---|
| Documentation for #34281; see https://review.typo3.org/#change,9205 |

For the TYPE: inline, the following setting is new:

foreign_types

array
This can be used to control which fields of the child table are displayed. You can override showitem etc. settings of the child table here, by supplying an override for the "types" array of that table. For details on how the types array is constructed, see the chapter "['types'][key] section" of the TCA Reference (i.e. this very manual).

## Associated revisions

**Revision 1186 - 2012-03-30 11:28 - Francois Suter**

Added documentation about overriding type of child table from parent table, resolves #34302

## History

**#1 - 2012-02-29 15:37 - Chris topher**

*- Target version set to 4.7.0*

**#2 - 2012-03-30 11:24 - Francois Suter**

*- Status changed from New to Accepted*

*- Assigned To set to Francois Suter*

Some example TCA setup would have been useful here. Hopefully we can add some in the next version of the documentation, once we have FAL in the Core (since I suppose that's what it was introduced for in the first place).

**#3 - 2012-03-30 14:30 - Francois Suter**

*- Status changed from Accepted to Resolved*

*- % Done changed from 0 to 100*

Applied in changeset r1186.

**#4 - 2012-04-23 22:18 - Francois Suter**

*- Status changed from Resolved to Closed*
