More Information

  Exception code   #-1

  File   /mnt/iscsi_shared_local/www/flow3/Packages/Framework/TYPO3.FLOW3/Classes/Reflection/ReflectionService.php

line 962

ACTIVE PACKAGES:

I tried it many times at different symstems and hardware, and yes the file is created and filled with content...

The bug happens often, my workaround is to

kickstart:package MyCompany:Dymmy1

kickstart:package MyCompany:Dymmy2

package:delete MyCompany:Dymmy2

and now ./flow3 package:list runs without failures.
