Subject:	LIVE Workspace behavior after publishing

Description

After publication the previewmode of workspace is completely empty.

If the editor switches to LIVE Workspace on the page tree root some unpublished elements appear which make no sense at all.

Why is it even possible that there are versions shown in the 'LIVE' tab? What DB-Fields have to be filled in which way to have a 'version' of a record listed in the 'LIVE' tab of the workspace as admin user?

Is it a duplicate of http://forge.typo3.org/issues/13056 ?
