

TYPO3.Fluid - Bug # 3443

Status:	Resolved	Priority:	Should have
Author:	Bastian Waidelich	Category:	Core
Created:	2009-05-25	Assigned To:	Sebastian Kurfuerst
Updated:	2010-10-20	Due date:	
Has patch:			
Affected Flow version:			
Subject:	Unreachable code in TemplateView		
Description			
line 246 in F3\Fluid\View\TemplateView can never be reached as there is a return before that:			
<pre>return \$parsedTemplate->render(\$renderingContext); // TODO -> Never executed??? if (\$sectionToRender !== NULL) { \$sections = \$partial->getVariableContainer()->get('sections'); if(!array_key_exists(\$sectionToRender, \$sections)) { throw new \F3\Fluid\Core\RuntimeException('The given section does not exist!', 1227108983); } \$syntaxTree = \$sections[\$sectionToRender]; } else { \$syntaxTree = \$partial->getRootNode(); } \$syntaxTree->setRenderingContext(\$renderingContext); return \$syntaxTree->evaluate();</pre>			

History

#1 - 2009-07-27 11:17 - Robert Lemke

- Category set to Core
- Target version set to 1.0.0 alpha 3
- % Done changed from 0 to 90

I roughly fixed this in r2873, however the partials rendering mechanism still needs to be checked by Sebastian.

#2 - 2009-08-31 10:23 - Sebastian Kurfuerst

- Status changed from New to Resolved
- % Done changed from 90 to 100

resolved a while ago by completely rewriting the TemplateView
