TYPO3.Flow - Bug # 34448

	Resolved	Priority:	Should have	
Author:	Jonas	Category:	Persistence	
Created:	2012-03-01	Assigned To:	Karsten Dambekalns	
Updated:	2012-06-01	Due date:		
PHP Version:	5.3	I		
Has patch:	No			
Complexity:				
Affected Flow vers	sion: FLOW3 1.0.3			
Subject:	Integrity constraint violation or	n FLOW3 resource tables		
Description				
I have an own mod	el/class/controller, called "award" wi	ith a property mapped to the stan	dard FLOW3 resource table.	
* The image				
* @var \TYPO3	3\FLOW3\Resource\Resource			
* @ORM∖Many	ToOne(targetEntity="\TYPO3\FLOW	/V3\Resource\Resource")		
*/				
protected \$im	lage;			
This works find the	images get unloaded and the reso	urce and resourcendinter tables a	are correctly filled. Then I created two of my

[BUGFIX] Integrity constraint violation deleting resources

If you have two resources using the same resource pointer, deleting a Resource will trigger deletion of the connected ResourcePointer which then leads to an integrity constraint violation.

This patch tells doctrine NOT to cascade delete operations. This will lead to orphan resource-pointers which have to be deleted manually or on a regular base.
