Sprint:	
PHP Version:	
Has patch:	
Complexity:	
Subject:	Update / move GPL.txt file in FLOW3 distribution

Description

Currently there's a GPL.txt file (containing GPL v2 text) in the FLOW3 distribution's main directory. Remove that.

In Packages/Global/FLOW3/Documentation/ there are two COPYING files - do we need the on about GPL v3? Can we rename the file containing the LGPL v3 text to "License.txt" ?

Having both license texts there is because LGPL simply adds to GPL. The naming follows the conventions suggested by the FSF.
