<b>Subject:</b>	CSS Styled Content should ship HTML5 by default		
<b>Description</b>			
add			
<pre># Set html5 rendering as default config {     doctype = html5     xmlprologue = none }</pre>			
to CSS Styled Content Templates as of 4.7 (do not touch old ones!)			

### History

#### #1 - 2012-03-13 14:15 - Gerrit Code Review

- Status changed from New to Under Review

Patch set 1 for branch **TYPO3\_4-7** has been pushed to the review server.

It is available at <http://review.typo3.org/9615>

#### #2 - 2012-03-13 15:10 - Patrick Broens

Although this seems very progressive, HTML5 is still a Working Draft and not an official recommendation at W3C. Things might change, as they did during my HTML5 implementation in `css_styled_content`, and break stuff (although not expected). I advise not to commit this at this point. Also WCAG 2.0 and WAI-ARIA 1.0 are used which are drafts as well.

#### #3 - 2013-07-03 15:26 - Alexander Opitz

- Status changed from Under Review to New

- Target version deleted (4.7.0-beta2)

Patch was abandoned

**#4 - 2014-09-24 12:35 - Felix Kopp**

*- Parent task set to #61842*

**#5 - 2014-12-19 12:42 - Riccardo De Contardi**

Couldn't this be closed?

1. HTML5 is default since 6.0 AFAIK
2. HTML5 has become official recommendation at W3C since Nov.,2014

**#6 - 2015-01-05 16:40 - Georg Ringer**

*- Status changed from New to Resolved*

yes resolved
