

TYPO3.Fluid - Bug # 3480

Status:	Resolved	Priority:	Must have
Author:	Robert Lemke	Category:	ViewHelpers
Created:	2009-05-27	Assigned To:	Sebastian Kurfuerst
Updated:	2010-10-20	Due date:	
Has patch:			
Affected Flow version:			
Subject:	SelectViewHelper creates multiple select field by default		
Description			
This Fluid HTML			
<pre><f:form.select property="versionNumber" options="{nextPossibleVersions}" /></pre>			
is rendered as			
<pre><select name="newRelease[versionNumber][]"> <option value="0">1.0.0-alpha1</option> <option value="1">1.0.0-beta1</option> </select></pre>			
even though I didn't specify a "multiple" argument. This is not what I'd expect.
