Revision b70090b7 - 2012-05-08 15:01 - Andreas Förthner

[FEATURE] Introduce the magic role "Anonymous"

This introduces a second magic role (besides the

role "Everybody") which is active as long as nobody

is authenticated. This allows for designing policies

in a way that anonymous users still have access to

certain resources.

Also fixes a small bug in the PolicyService which

previously did not return the Everybody or Anonymous

role on getRoles().
