

Core - Task # 36025

Status:	Resolved	Priority:	Must have
Author:	Christian Kuhn	Category:	Default
Created:	2012-04-14	Assigned To:	
Updated:	2012-09-23	Due date:	
TYPO3 Version:	6.0		
PHP Version:	5.3		
Complexity:	medium		
Sprint Focus:			
Subject:	Make simulatestatic TER ready		
Description			
<p>With #25099 EXT:simulatestatic was removed from the core. The extension was probably roughly working at this point, but tied to core code and unmaintained.</p> <p>At least these tasks should be done before 6.0 release:</p> <ul style="list-style-type: none">- Find someone who wants to maintain the extension- Add documentation to simulate static- Test it- Maybe we need a hook in the core to resurrect the functionality- Maybe create a core upgrade wizard that loads the extension from TER if it is installed when upgrading- Release to TER- Add / finish NEWS.txt entry <p>If we do not manage to get a working TER release of simulate static ready, we will revert the removal patch.</p>

[TASK] Add upgrade wizard to install extensions from TER

This patch replaces the two upgrade wizards to install new or outsourced system extensions. It combines both and allows you to install extensions from the TYPO3 Extension Repository (TER).

History

#1 - 2012-04-14 11:57 - Markus Klein

I will push a patch which inserts the necessary hook.
Furthermore I'll put the simulate static extension here.
