Complexity:			
Is Regression:			
Sprint Focus:			
Subject:	Remove XCLASS blocks from t3lib		
Description			

After #31893 the XCLASS blocks from within the Core can be remove. This issue covers all t3lib related "actions".

During the removal the classes t3lib_timeTrack and t3lib_TimeTrackNull should be declared to be "final" as they're not supposed to be extended anyways (see inline docs).

Patch should not be merged before #36183 is done and merged - otherwise dbal will be broken on master.

[BUGFIX] Remove XCLASS inclusion blocks from t3lib

After #31893 is merged we can remove the XCLASS blocks from the
Core. This patchset removes it from the classes within t3lib.

Besides that it declares t3lib_TimeTrackNull and t3lib_TimeTrack
to be final to make sure that extending them is still denied.

This patchset itself should not be merged before the related patch
for EXT:dbal (#31183) is merged.
