

## TYPO3.Flow - Bug # 3633

<b>Status:</b>	Closed	<b>Priority:</b>	Must have
<b>Author:</b>	Christopher Hlubek	<b>Category:</b>	Package
<b>Created:</b>	2009-06-09	<b>Assigned To:</b>	Christopher Hlubek
<b>Updated:</b>	2010-10-20	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>			
<b>Complexity:</b>			
<b>Affected Flow version:</b>			
<b>Subject:</b>	Local packages path is guessed wrong		
<b>Description</b>			
<p>A wrong path for local packages ("Packages/Local") will be used by the package manager if the Global directory is linked to another FLOW3 installation.</p> <p>This means, that new packages will not be created in the local "Packages/Local" directory, but in the global install. And - worse - packages will not be found in the local directory.</p> <p>We should change the guessing algorithm, so that it doesn't rely on the location of the FLOW3 package for the Local package directory.</p>			

### History

#### #1 - 2009-06-15 00:03 - Christopher Hlubek

- Status changed from New to Closed
- Target version deleted (1.0 alpha 2)

I could not reproduce the issue again and the code seems actually to be right. So I'll close this for now as everything works.
