

TYPO3.Fluid - Bug # 3635

Status:	Closed	Priority:	Must have
Author:	Marcel Rosenberger	Category:	
Created:	2009-06-09	Assigned To:	Bastian Waidelich
Updated:	2010-10-20	Due date:	
Has patch:			
Affected Flow version:			
Subject:	Fluid: SelectViewHelper always appends the select-field's name with []		
Description			
The name for a select-field will always be appended by [] whether the field is multiple or not.			
<pre><f:form.select name="mySelectField" options="{0: 'no', 1: 'yes'}" value="0" /></pre>			
will result to			
<pre><select name="mySelectField[]"> <option value="0" selected="selected">no</option> <option value="1">yes</option> </select></pre>			
Note: mySelectField[] instead of mySelectField			
The included file is a suggestion to fix the bug.			

History

#1 - 2009-06-12 20:16 - Bastian Waidelich

- Status changed from New to Closed

I can't reproduce this..

I use the exact input of your example and get

```
<select name="mySelectField">
<option value="0" selected="selected">no</option>
<option value="1">yes</option>
</select>
```

Please re-open ticket if this still occurs with the current version (trunk).

#2 - 2009-06-12 20:47 - Marcel Rosenberger

I can confirm that this is now fixed in the current trunk version.

#3 - 2009-10-21 17:54 - Bastian Waidelich

- Project changed from Extbase MVC Framework to TYPO3.Fluid

- Category deleted (432)
