<b>Subject:</b>	Do not use cObject HTML. Use cObject TEXT instead		
<b>Description</b>  The manual currently uses the cObject HTML in some examples (I quickly found four). This cObject is deprecated since TYPO3 4.6. It has been removed for TYPO3 6.0. See #36402.  Rewrite the examples to use the cObject TEXT instead. Needed change: Use the TEXT cObject and do not use stdWrap of the property "value", but stdWrap on the rootlevel of the object.

[TASK] Do not use cObject HTML. Use cObject TEXT instead

The manual at some places mentions the cObject HTML, which had been deprecated and has been removed in TYPO3 6.0. Rewrite these places to use the cObject TEXT instead.
