

## TYPO3.Flow - Bug # 36634

<b>Status:</b>	New	<b>Priority:</b>	Should have
<b>Author:</b>	Christian Müller	<b>Category:</b>	
<b>Created:</b>	2012-04-26	<b>Assigned To:</b>	
<b>Updated:</b>	2012-04-26	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>			
<b>Affected Flow version:</b> Git master			
<b>Subject:</b>	Reconstituted entities do not have their properties set when initializeObject() is called		
<b>Description</b>			
<p>The doctrine proxy __load method seems to be never called, instead UnitOfWork::createEntity() uses UnitOfWork::newInstance() which basically clones our proxy class (which also means we generate an UUID and set the clone property) and after that just inserts the properties...</p>
