Subject:	Update "CGL on one page" PDF and link it		

Description

We once had a nice PDF containing the most important CGL on one page (see attachment). This has been removed with the relaunch of flow3.typo3.org apparently.
We should update the PDF and link it in the CGL section of the documentation on flow3.typo3.org

Some of the required changes:

- remove encoding declaration
- adjust license header
- remove obsolete class annotations (@pacakge, @version, @license)
- Replace \F3 with \TYPO3\FLOW3
- Add trailing backslash to "ArrayObject" in var annotation
- Add empty space between description and var annotations
- Remove @author annotations
