TYPO3.Fluid - Bug # 36662

Status:	Needs Feedback	**Priority:**	Should have
Author:	Kevin Ulrich Moschallski	**Category:**	ViewHelpers
Created:	2012-04-27	**Assigned To:**	Kevin Ulrich Moschallski
Updated:	2013-08-14	**Due date:**	
Has patch:	No		
Affected Flow version: Git 1.1			
Subject:	Checked state isn't always correct when property is collection		

Description
The checkboxViewHelper doesn't always set the correct checked state when the property is an collection. I took the mechanism of the selectViewHelper and put it in the checkboxViewHelper.

#8 - 2012-07-26 12:44 - Bastian Waidelich

- Status changed from Under Review to Needs Feedback

@Kevin could you please give some feedback on how to reproduce the problem

```
1 <ul>
2    <f:for each="{someCollection}" as="someItem">
3       <li>
4          <f:form.checkbox property="someCollection" multiple="true" value="{someItem}" /> {someItem.title}
5       </li>
6    </f:for>
7 </ul>
```

Works for me.

#9 - 2012-07-26 13:24 - Kevin Ulrich Moschallski

Hi Bastian,

my case looks like yours and with the patch applied it works fine for me. If you want i could upload my test package somewhere.
