TYPO3.Flow - Bug # 36913

Status:	Resolved		**Priority:**	Must have
Author:	Pankaj Lele		**Category:**	Http
Created:	2012-05-07		**Assigned To:**	Robert Lemke
Updated:	2012-05-26		**Due date:**	

PHP Version:	5.3
Has patch:	No
Complexity:	medium
Affected Flow version:	FLOW3 1.1.0 beta 1
Subject:	HTTP PUT data not regonized as arguments

Description

Data submitted with HTTP PUT method is not recognized in the TYPO3\FLOW3\Http\Request

This is required while developing a REST service with FLOW3. So e.g. with curl call like:

curl -X PUT -d "name=New name" http://myservice.com/users/12345

the MyController->updateAction($user, $name) would receive $name as an argument.

Associated revisions

Revision 26f83dd3 - 2012-05-23 16:21 - Robert Lemke

[FEATURE] Support for HTTP PUT/DELETE arguments

This adds transparent argument support for arguments
in PUT and DELETE requests which are passed through
the request body. Depending on the content type of
the request, the message body is parsed and then
mapped into arguments for further use in controllers.

The following content content types are currently
supported:

- application/x-www-form-urlencoded
- application/json
- xml
