PHP Version:			
Has patch:	No		
Complexity:			
Subject:	Add type filter to var_dump()		

Description
Idea: add filter options to \TYPO3\FLOW3\var_dump() so that the dump can be configured for certain types / properties. This is especially useful in Fluid:

```
1{user -> f:debug(excludeProperties: 'addresses')}
2{someObject -> f:debug(excludeTypes: 'Some\ClassName')}
```
