PHP Version:			
Has patch:			
Complexity:			
Subject:	AOP: Test introducing multiple interfaces		
Description			
Some more tests need to be written to test introduction of more than one interface and what happens if interfaces have conflicting method signatures.			

History

#1 - 2007-03-05 20:24 - Robert Lemke

- Status changed from New to Closed
- Sprint set to fixed

(In r167) Refactored the T3P_Core_AOPProxyClassBuilder:

- Core: The AOPProxyClassBuilder smelled like Duplicated Code (76) and therefore I decided to split it up using the Template Method (325) pattern. Addresses #35.
- Core: Added tests and fixtures to assert that introducing multiple interfaces does work (it didn't work as my tests showed soon). Now everything seems to be fine and that fixes #37.
