

TYPO3.Flow - Feature # 37212

Status:	Accepted	Priority:	Must have
Author:	Julian Wachholz	Category:	Http
Created:	2012-05-16	Assigned To:	Robert Lemke
Updated:	2013-05-21	Due date:	
PHP Version:	5.3		
Has patch:	No		
Complexity:	hard		
Subject:	Edge Side Includes (ESI)		
Description	Having a framework that supports ESI would give us a vast improvement in speed. Symfony is currently the only framework that does support edge side includes and I think we can learn a lot from it. :)

History

#1 - 2012-05-21 10:28 - Robert Lemke

- Status changed from New to Accepted
- Assigned To set to Robert Lemke
- Priority changed from Could have to Must have
- Target version set to 2.0 beta 1
- PHP Version set to 5.3
- Complexity set to hard

This has been on our agenda since December 2011 - in fact, it's the main reason I started implementing the improved HTTP support.

Thanks for opening the ticket anyway - scheduled for FLOW3 1.2.

#2 - 2012-12-10 13:32 - Karsten Dambekalns

- Target version changed from 2.0 beta 1 to 2.1

#3 - 2013-05-21 13:28 - Robert Lemke

- Target version deleted (2.1)
