Subject:	Authentication after long time of inactivity		

Description
hi folks, being logged in, going to bed, awake in the morning and did a reload throws an exception instead of redirecting to the login page. #1258721059: The security context contained no tokens which could be authenticated. TYPO3\FLOW3\Security\Exception\AuthenticationRequiredException thrown in file /Data/Temporary/Development/Cache/Code/FLOW3_Object_Classes/TYPO3_FLOW3_Security_Authentication_AuthenticationProviderManager_Original.php in line 142. Reference code: 2012051708313083b115 better catch this and redirect to login?
