PHP Version:			
Has patch:			
Complexity:			
Affected Flow version:			
Subject:	Site should be unlocked by Exception Handler		
Description			
<p>If the site was locked and during that run FLOW3 crashes with some exception, the lock is not removed which results in a locked site for a minute (according to the constant in the LockManager).</p> <p>The exception handler should remove the lock file if the current run locked the site.</p>
