TYPO3.Flow - Bug # 37385

Status:	Resolved	**Priority:**	Should have
Author:	Carsten Bleicker	**Category:**	Validation
Created:	2012-05-22	**Assigned To:**	Karsten Dambekalns
Updated:	2012-06-20	**Due date:**	

PHP Version:	
Has patch:	No
Complexity:	
Affected Flow version:	FLOW3 1.1.0 beta 1
Subject:	Annotation of Validate and IgnoreValidation

Description

I would expect that notation of Validate and IgnoreValidation is the same.
@FLOW3\Validate(argumentName="test"...) matches but @FLOW3\IgnoreValidation(argumentName="test") doesnt. i have to write
@FLOW3\IgnoreValidation("$test") or @FLOW3\IgnoreValidation(argumentName="$test").

The FLOW3\Validate does an ltrim of "$" wich the IgnoreValidation Annotation doesn't.

Associated revisions

Revision 4ae13b54 - 2012-05-30 20:45 - Karsten Dambekalns

[BUGFIX] Fix inconsistent Validate and IgnoreValidation behavior

The Validate annotation does an ltrim of "$" on the argument which the
IgnoreValidation annotation did not do. This change makes the two behave
the same by adding that trim to IgnoreValidation as well.
