# TYPO3.TYPO3CR - Bug # 37434

| | | | |
|---|---|---|---|
| **Status:** | Resolved | **Priority:** | Must have |
| **Author:** | Adrian Föder | **Category:** | Node handling |
| **Created:** | 2012-05-23 | **Assigned To:** | Adrian Föder |
| **Updated:** | 2012-05-24 | **Due date:** | |
| **Subject:** | Functional Domain/NodesTest must have testableHttpEnabled | | |
| **Description** | | | |

TYPO3\TYPO3\Domain\Service\ContentContext::initializeObject() has

  $activeRequesthandler->getHttpRequest()->getUri()->getHost())

getHttpRequest() returns NULL if the TYPO3CR's NodesTest doesn't have

  protected $testableHttpEnabled = TRUE;

and therefore the FunctionalTest fatal error's very early with "calling getUri() on a Non-object"

## Associated revisions

**Revision a9e150eb - 2012-05-23 15:13 - Adrian Föder**

[BUGFIX] Functional Test Domain\NodesTest now has Http enabled

The NodesTest must have testableHttpEnabled set to TRUE in order
to don't let the involved TYPO3.TYPO3\Domain\Service\ContentContext
fail.
