Subject: Duplicate entries exception for electronicAddresses by adding through setPrimaryElectronicAddress			
Description			
Having a form wich sets the primaryElectronicAddress. 1. Submitting with invalid email address forces a validation error, okay 2. Submitting again with valid email the result in the address collection is: http://pastebin.com/DE0zyDek this collection forces an exception for duplicate entries. maybe this "contain" check is the point to take a look at?: https://review.typo3.org/#/c/11078/1/Classes/Domain/Model/Person.php
