Subject:	Bug on TYPO3\Media\TypeConverter\ImageConverter		
Description			
<p>Bug on TYPO3\Media\TypeConverter\ImageConverter from TYPO3.Form:ImageUpload.</p> <p>I have an exception when i use "TYPO3.Form:ImageUpload" in my form factory. Exception said :</p> <p>#1297759968: Exception while property mapping for target type "TYPO3\Media\Domain\Model\Image", at property path "": It is not allowed to map property "resource". You need to use \$propertyMappingConfiguration->allowProperties('resource') to enable mapping of this property.</p> <p>I have modify "TYPO3\Media\TypeConverter\ImageConverter" :</p> <p>On line 46 :</p> <pre>return \$source;</pre> <p>Replaced by :</p> <pre>return array();</pre>			

History

#1 - 2012-06-01 14:10 - Nicolas C

- File *ImageConverter.php* added

For fix this bug on TYPO3\Media\TypeConverter :

When form is submitted the source (\$source) is an array but conversion of 'resource' parameter does not executed.

So i have modify this type converter to implement "TYPO3\Flow3\Resource\ResourceTypeConverter".

I have join my file "ImageConverter.php".

#2 - 2012-06-01 14:55 - Adrian Förder

Nicolas, as far as I see this, you have to adjust the controller that handles the image upload. Is that controller located in the TYPO3.Form project? If so, the problem lies there.

Don't hesitate to ask further or join the IRC channel.
