

## TYPO3.Flow - Bug # 37895

<b>Status:</b>	Closed	<b>Priority:</b>	Could have
<b>Author:</b>	Christian Jul Jensen	<b>Category:</b>	
<b>Created:</b>	2012-06-11	<b>Assigned To:</b>	
<b>Updated:</b>	2013-01-21	<b>Due date:</b>	
<b>PHP Version:</b>			
<b>Has patch:</b>	No		
<b>Complexity:</b>			
<b>Affected Flow version:</b> FLOW3 1.1.0 beta 2			
<b>Subject:</b>	Packagemanager::ImportPackage doesn't use package specific Package class		
<b>Description</b>			
<p>The importPackage initiates the standard Package class and not the Package specific one.</p> <p>I'm not sure if there could be a reason for this. Also it might not be an issue, since it would be loaded correctly on the next run.</p> <p>Slightly related: I came across this while looking in to composer support, and that would have to make the package specific Package.php optional anyway.</p>
